

MAKE AN ENTRANCE...

...WITH THE NEW CONSORT MAGNUM

The ultimate in home security, combining the best in classic style and performance

Manufactured to the highest calibre and thoroughly tested to beyond industry standards this energy efficient fibreglass composite door provides excellent thermal and sound insulation. Its strength comes from the construction of its sub-frame in solid, water resistant polymer material, reinforced with Laminated Veneer Lumber (LVL). The depression moulded GRP skins, giving the authentic timber look, are then bonded to this sub-frame and its core filled with high density, 100% CFC-free polyurethane foam.

The fully reinforced, triple sealed outer frame, the multi-point security locking system and the unique adjustable hinges make the Consort Magnum a real heavyweight performer that retains an amazingly light, yet positive easy feel.

A choice of four striking colours, two woodgrain effects, plus of course brilliant white as standard, or our inspired selection of non-standard colours, give your door that individual touch. Added to that is our wide and varied range of plain or decorative glazing options... the possibilities are endless.

Benefits

- Standard glass – triple glazed toughened
- Multipoint Locking System – 5 point locking system with hooks and roller cams
- Security handle set
- Anti-bump cylinder locks
- Unique fully adjustable hinges rebated into door for discreet and perfect fit
- Triple sealed – giving double the weather protection of a standard flush door
- Low threshold – severe weather rated and for easy access
- Impact resistant Thermoset GRP skin will not expand, contract or crack
- Maintenance free – just wipe clean and never needs painting

Secured by Design

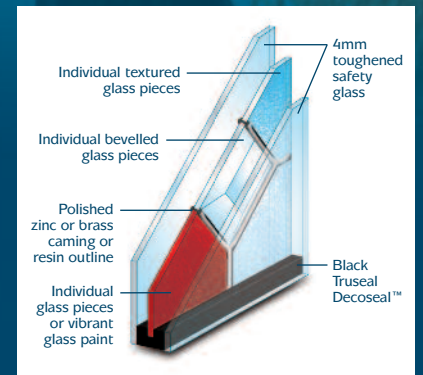

- Police preferred specification
- Triple glazed – laminate, toughened, toughened glass units

Now you can turn your door into a work of art using our extensive range of plain or decorative glazing options

Whether it is traditional bevels and caning constructed by hand as a modern day leaded light, a resin bevel, coloured glass designs or coloured bevels, the eleven ranges offered will cover almost any taste. From traditional to ultra-modern with truly contemporary styles, the choice is varied and wide.

All decorative units are triple glazed, for high performance heat and sound insulation, with toughened glass outer panes and black Truseal Decoseal™ edge sealant. Triple glazing ensures the protection of the decorative centre pane, preventing oxidisation of the coming and keeping the intricate glass designs clean and dust free. A wipe over the smooth glass outer pane is all it takes to keep your glass clean and sparkling.

11 GLASS DESIGNS TO COMPLEMENT AND ENHANCE YOUR CHOSEN DOOR

Whether you like a traditional look or prefer something a little more contemporary, our eleven design styles cater for all tastes. So open up your imagination to a world of colour, style and elegance in decorative glass to add something extra to your new door.

Andaman

An exclusive, elegant design using hand cut bevels and beautifully textured glass pieces, assembled using traditional stained glass methods into brass or zinc coming.

Celebes

A striking, yet traditional, fleur-de-lys design in three rich colourways. Hand painted resin colours and fine lining provide a bold, very attractive overlay to the satin finish base glass.

Coral

Featuring clear bevels, Coral boasts three different colourways, featuring primary colours with a toning hue to provide a unique look.

Flores

The handcrafted centre pane of sparkling bevels of this distinct and bold tulip design is reminiscent of the Art Deco period.

Java

The traditional look of the ever popular 'drop diamond' design, not only featuring coloured glass pieces, but a choice of zinc or black patina coming, gives a contemporary and clean feel.

Kara

Traditionally made glass and hand soldered coming in brass or zinc, with a choice of clear bevels or contrasting coloured glass.

Laptev

The satin glass centre panel features state of the art two-tone bold resin colours, in a classic yet modern design.

Marmara

The Mediterranean influence of this sophisticated design combines clean, clear lines within an etch-effect glass enhanced with striking fused and coloured glass tiles in both fan and diamond configurations.

Scotia

A stylish and balanced design with brilliant-cut bevels and classic textured glass pieces, handcrafted into brass or zinc coming for clear and zinc coming only for coloured units.

Tasman

Hand painted using bright resin colours and fine lines; Tasman is a very traditional rose design.

Timor

Up-to-the-minute, contemporary design featuring clean lines against an etch-effect glass and round, clear or light coloured bevels.

Slight bubbles and surface imperfections are all characteristics of glass. They are not considered defects as they add character to decorative glass.

Bevelled and Coloured GLASS DESIGNS MAGNUM 2 & 14

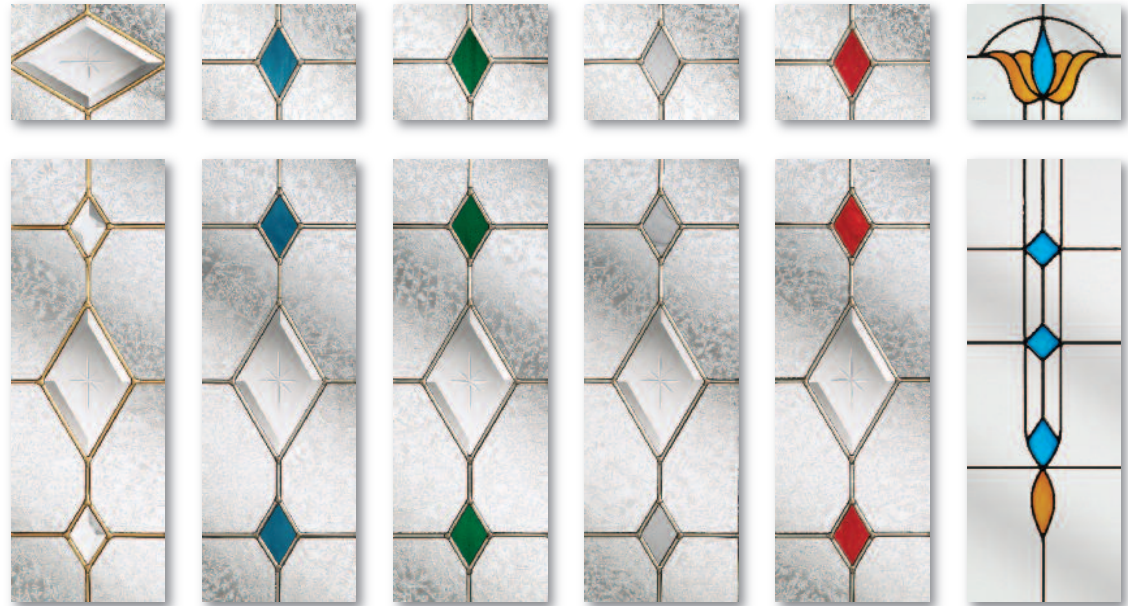

Magnum 14
Tasman

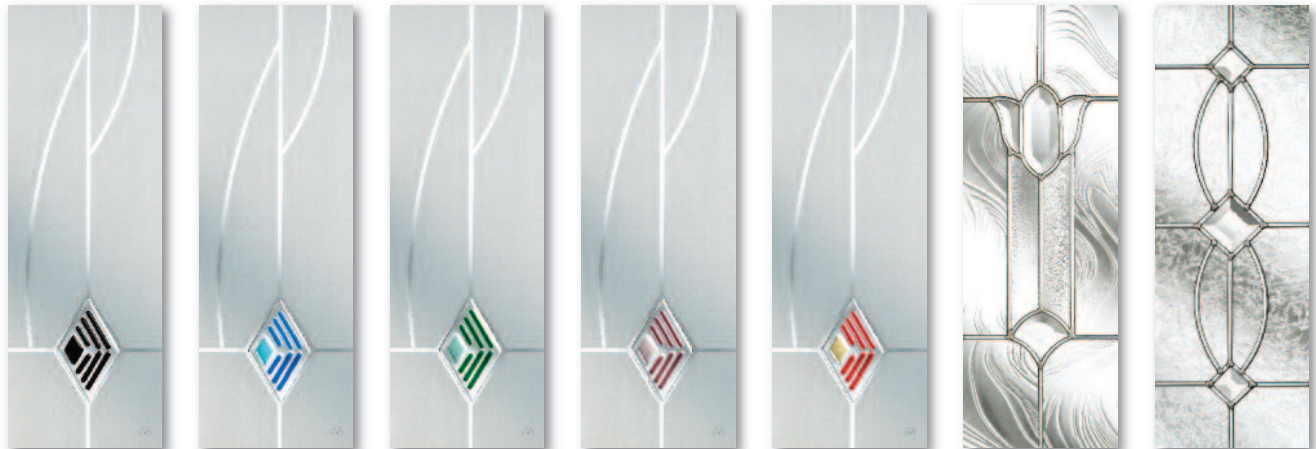

An appealing and traditional look that lets the design of decorative glass flow through from the lower to higher level, providing an attractive ensemble to the 6 panel Magnum 14 door. Alternatively the higher glazing of the Magnum 2 provides greater privacy, whilst still using decorative glass to enhance the door.

Your choice of
CONTEMPORARY DOOR STYLES

With its grained GRP skin, the Magnum 23 flush door style, finished in the standard Black, Blue, Green, Red, White, Cherrywood and Rosewood provides the perfect basis for the positioning of decorative glass, so you get a completely different look to the traditional panel door. Other colours can be used too and a look at colours on pages 6 and 7 may inspire you further.

The choice of decorative glass can give a very modern and edgy look as can be seen from the Picasso, Matisse, Warhol, Dali, Rayner and Emin glass shown here. However, the look can be softened by the more traditional glass styles, such as Java, Scotia, Timor, Andaman or Kara. Clear or coloured, complementing or contrasting – this is your chance to stand out from the crowd and be that little bit different.
